GENERAL INFORMATION ON THE AREA

INTRODUCTION

For those who imagine a Greece of sun-baked rocks dotted with dazzling white houses, the Ionian represents a sweet surprise. This is not the Greece you see in popular travel brochures, but a green, shady countryside with red-roofed Latin houses, an eccentric blend of Italian and French architecture and English tastes welded together into a whole that is undeniably Greek.

Evergreen cypresses, pines, elms, green fields, flowering even in midsummer, and everywhere the dull, dark sheen of the olive tree, characterize the low lands, while higher up the slopes are covered with pines and the tenacious Mediterranean scrub. If the wind is in the right direction, one can smell the pungent aroma of grass as far as a mile from the sea.

WEATHER

WIND

Winds are constant in summer. From June to late September the normal wind in the northern Ionian is NW to WNW. It generally arrives around noon, blows between Force 2 and 5, and dies at sunset. There may be a light E or SE wind in the morning, but it rarely reaches Force 1-2. In July and August a wind known as Mistral can blow from the N-NW with a strength slightly higher than the normal NW wind.

THUNDERSTORMS

These occur most frequently in spring and autumn and are often accompanied by gales. Remember that the wind direction during a gale often changes 180°.

VHF FORECAST

Weather information is provided at: 06:00, 10:00, 16:00, 22:00 UTC. After the call on VHF channel 16: "All Ships, All Ships, All Ships," a channel list is provided for each local area directing to the nearest coastal weather information center. Most broadcasts are in English, followed by Greek.

SKIPPER'S DAILY PROGRAM

PRE-DEPARTURE

07:30 wake-up > check mooring/anchoring (hatch/anchor/lines/fenders), boat check (W.O.B.B.L.E.) and check battery charge status;

08:30 breakfast > update crew on weather, navigation, and daily plans

09:30 navigation preparation > turn on VHF, GPS, electronics, last forecast and route check, record in logbook engine hours, check hatches, sea cocks, toilet, doors, gas, secure dinghy, outboard motor and ensure boat safety (close portholes/rails)

Activity times may vary depending on the day (see day-by-day program below):

NAVIGATION

10:00 departure > form safety pairs

10:00 - 13:00 > navigation, check proper sail trim (one step down), check crew safety (wear shoes, no knives/glassware around, no lying down leeward, no standing at the bow with waves, no standing on the bridge, etc.)

LANDING

13:00 - 13:30 > time may vary depending on the day (see day-by-day program below), mooring/anchoring, check mooring/anchoring security. Meanwhile, the crew can prepare lunch.

LUNCH TIME

13:30 - 15:00 > lunch and boat tidy up (so it is always ready to depart if necessary)

ON-SHORE ACTIVITIES / IN THE BAY

15:00 - 18:00 > book any evening or following day activities (e.g. happy hours, dinners, after-dinner, ports), check mooring/anchoring before sunset with snorkel and mask

SKIPPER'S MEETING

18:00 - 19:00 > staff meeting, check status of boats and crews, forecast for the following days and next day's schedule

HAPPY HOUR, DINNER AND EVENING ACTIVITIES

19:00 - 24:00 > check hull (batteries, tank levels, bilges), update crew on any changes emerged in the Skipper's Meeting, manage dinner, manage tender.

THE SKIPPER'S ROLE

Being a skipper is a unique and extraordinary experience that offers the opportunity to discover the world from the sea. Sailing on the open sea, admiring the coastal landscape and the endless horizon, feeling the sea breeze and the sound of the waves, is an experience that fills your heart with peace and serenity. However, it also comes with enormous responsibilities: you are in charge of managing and ensuring the safety of the boat, and you are also responsible for all your crew.

It is important to remember that for most of the crew this is probably their first boating experience, so what you skippers take for granted is most likely not for them.

The skipper is responsible for the boat at all times.

If there is an inexperienced crew on board, anchoring and mooring will be more difficult, especially in adverse weather conditions. It is best to get help from the crew, first explaining the maneuver and what exactly they need to do.

The crew should always have a way to contact the skipper in case of need. Therefore, it is appropriate to have the phone numbers of all crew members and for everyone to have the skipper's number.

The skipper must always behave professionally with the crew and any other person involved in the event.

This means that the skipper should never be blatantly drunk or under the influence of other drugs, or behave rudely, such as not helping colleagues or crew when necessary.

- You are responsible for the safety and well-being of your crew.
- You must follow local laws and regulations.
- You must never leave anyone from your crew and/or fleet behind.
- You must always assist other skippers.
- If you must leave your boat for an extended period, you must tell your crew where you are going and how they can contact you.
- You must set a good example to all clients, who will see in you a role model!

WHATSAPP GROUPS

16 DAYS BEFORE DEPARTURE

- Water Tribe staff coordinator will send you by WhatsApp all telephone numbers of your crew;
- please save immediately names and numbers in your phone address book.

15 DAYS BEFORE DEPARTURE

- Water Tribe staff coordinator will create a WhatsApp Group and will upload all documents necessary for the management of the cruise (pre-departure information, supplier contacts, recommended galley list etc. etc.);
- Water Tribe staff coordinator will add to the group all the participants of the round starting two weeks later;
- Water Tribe staff coordinator will "tag" each skipper and their crew in order to indicate every single boat crew;
- Water Tribe staff coordinator will leave the group, from then on you will be the only contact person for your crews;
- skippers introduce themselves and ask pax. to briefly introduce themselves
- ask your crew to elect a 'Provisioning Manager' and tell them to privately manage the galley list with their crew;
- probably your crew will create a private WhatsApp Group.

7 DAYS BEFORE DEPARTURE

- the Fleet Manager provides the meeting point and approximate boarding time;
- the Fleet Leader provides the "Welcome Dinner" menu;
- each skipper must request to his crew confirmation of attendance at the "Welcome Dinner".

2 DAYS BEFORE DEPARTURE

- the Fleet Leader books the Welcome Dinner for all crews (e.g. 'Table Tagliabue, 8 pax., 3 fish/5meat')
- each skipper must request to his crew confirmation of the arrival time in the Marina.

For any crew management issues please contact via WhatsApp MASSIMILIANO MARINARO.

MANAGEMENT OF ACTIVITIES

The skipper is the sole point of contact for the management of all activities during his crew's cruise:

- communication to the crew of the day's programme and itinerary every day in the morning;
- management of check-in/out and communication of boarding times;
- booking the Welcome & Farewell Dinner (the most important moment of the vacation);
- booking of any activities ashore (bikes, visits, restaurants etc. etc.).

In the day-by-day programme it is indicated when skippers will be required to participate in land-based activities (excursions, dinners), it will be good practice to have at least one skipper on the boats at all times. In this case you will have to delegate the management of your crew to a colleague.

IMPORTANT > In the event of an accident or incident, immediately follow the procedures outlined during WeRoad training.

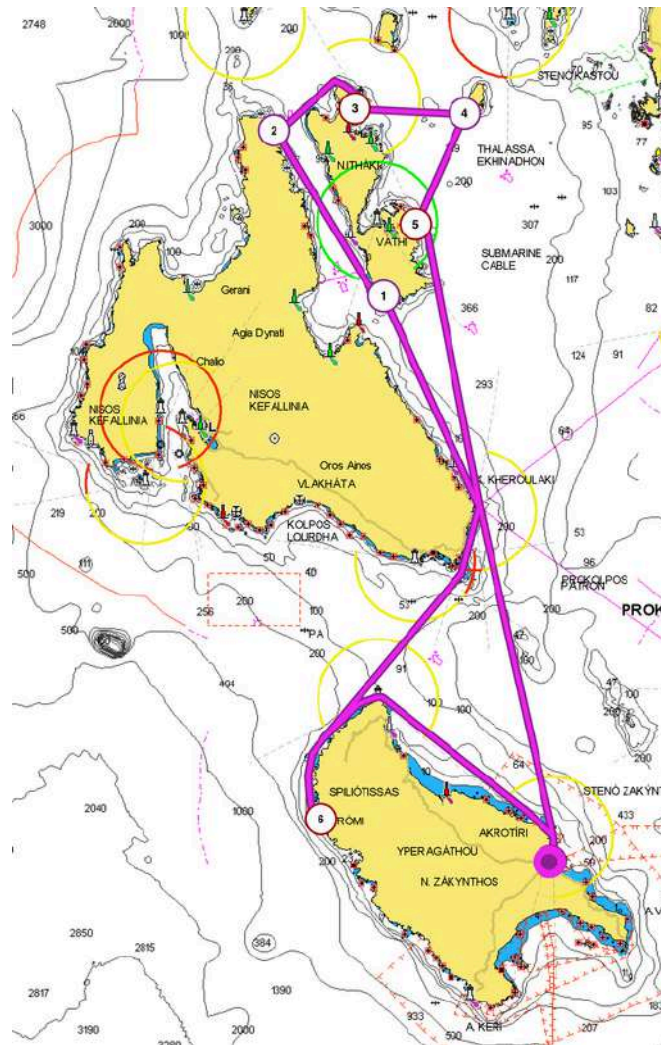

CHANGE OF ROUTE

VERY IMPORTANT > if it is necessary to make a change to the weekly programme, the Fleet Leader must promptly send a mail to alice.brandola@weroad.com and info@watertribe.it on the day of the programme change, stating:

- name of the holiday (ex. Sail Adventure Corfu);
- shift code and start/end date;
- name of skippers / coordinators on all boats;
- change of route instead of "A" you will do "B";
- reason (weather, breakdown, no mooring in port etc. etc.).

ITINERARY

ROUTING 125 Nm. - EXTIMATED FUEL 185 Lt.

DAY BY DAY ITINERARY

Saturday > Embarkation at Zakynthos Marina. Check-in, provisioning, and optional dinner ashore. The skipper will be available for dinner in the evening. Free evening, overnight stay in the harbor.

Sunday > Departure from Zakynthos and sailing towards Ithaca. Anchor at Skala Beach, southeast of Kefalonia for a swim and lunch (18 nautical miles, approximately 3 hours of sailing). Depart in the early afternoon towards Ithaca and anchor at Kalo Lagadi bay, south of the island (16 nautical miles, approximately 3 hours of sailing). Relax, swim, dinner on board, and overnight at anchor.

Monday > Sailing from Ithaca to Kefalonia. Anchor at Chorgota Beach (Film capitano Corelli) for a swim and lunch (6 nautical miles, approximately 1 hour of sailing). Depart in the early afternoon towards Fiskardo port, northeast of Kefalonia Island (8 nautical miles, approximately 1.5 hours of sailing). Optional aperitif and dinner ashore (the skipper will be available for dinner in the evening). Free evening, overnight stay in the harbor/anchorage.

Tuesday > Possibility to visit Kefalonia Island until after lunch (the skipper will be available to the group). Short transfer in the afternoon to Marmakas Beach, northeast of Ithaca Island (8 nautical miles, approximately 1.5 hours of sailing). Relax, swim, dinner on board, and overnight at anchor.

Wednesday > Sailing from Ithaca to the nearby island of Atokos. Anchor for a swim and lunch (8 nautical miles, approximately 1.5 hours of sailing). Depart in the early afternoon towards Filiatro bay in Ithaca (8 nautical miles, approximately 1.5 hours of sailing). Optional aperitif and dinner ashore, free evening, overnight stay at anchor.

Thursday > Early morning departure from Ithaca to Zakynthos, passing by Navagio Beach (Shipwreck Beach is off-limits) at lunchtime. Short transfer in the afternoon to Porto Vromi Beach, northwest of Zakynthos Island (38 nautical miles, approximately 6 hours of sailing). Relax, swim, dinner on board, and overnight at anchor.

Friday > Early morning sailing towards the southeast, stop for lunch and swimming in one of the coves south of Zakynthos Island. Return to Zakynthos Marina in the afternoon for check-out, optional dinner ashore (the skipper will be available for dinner in the evening), free evening (26 nautical miles, approximately 5 hours of sailing).

Saturday > Disembarkation in the morning and farewell.

DAY 1 - SATURDAY

SCHEDULE

Embarkation at Zakynthos Marina. Check-in, provisioning, and optional dinner ashore. The skipper will be available for dinner in the evening. Free evening, overnight stay in the harbor.

13:00-16:00: Crew arrives, general briefing

16:00-17:00: Crew buys provisions

16:00-18:00: check-in and General Boat briefing

20:00-22:00: Dinner

NOTES

Nothing to report

GENERAL BOAT BRIEFING

The general briefing should contain: the weekly schedule, rules on the boat, living together, how to stow provisions, and the daily schedule with times. Boat briefing should also contain an explanation of all the objects on board: Fridge, toilets, lights, Water, Portholes

- do not throw anything into the toilet (paper, tampons...);
- if available, always use the black water tank when anchored/moored;
- always close portholes during navigation;
- close or lock the doors during navigation.

WHAT TO DO

- check in;
- provisions;
- dinner.

CONTACTS

Nothing to report

SAFETY BRIEFING

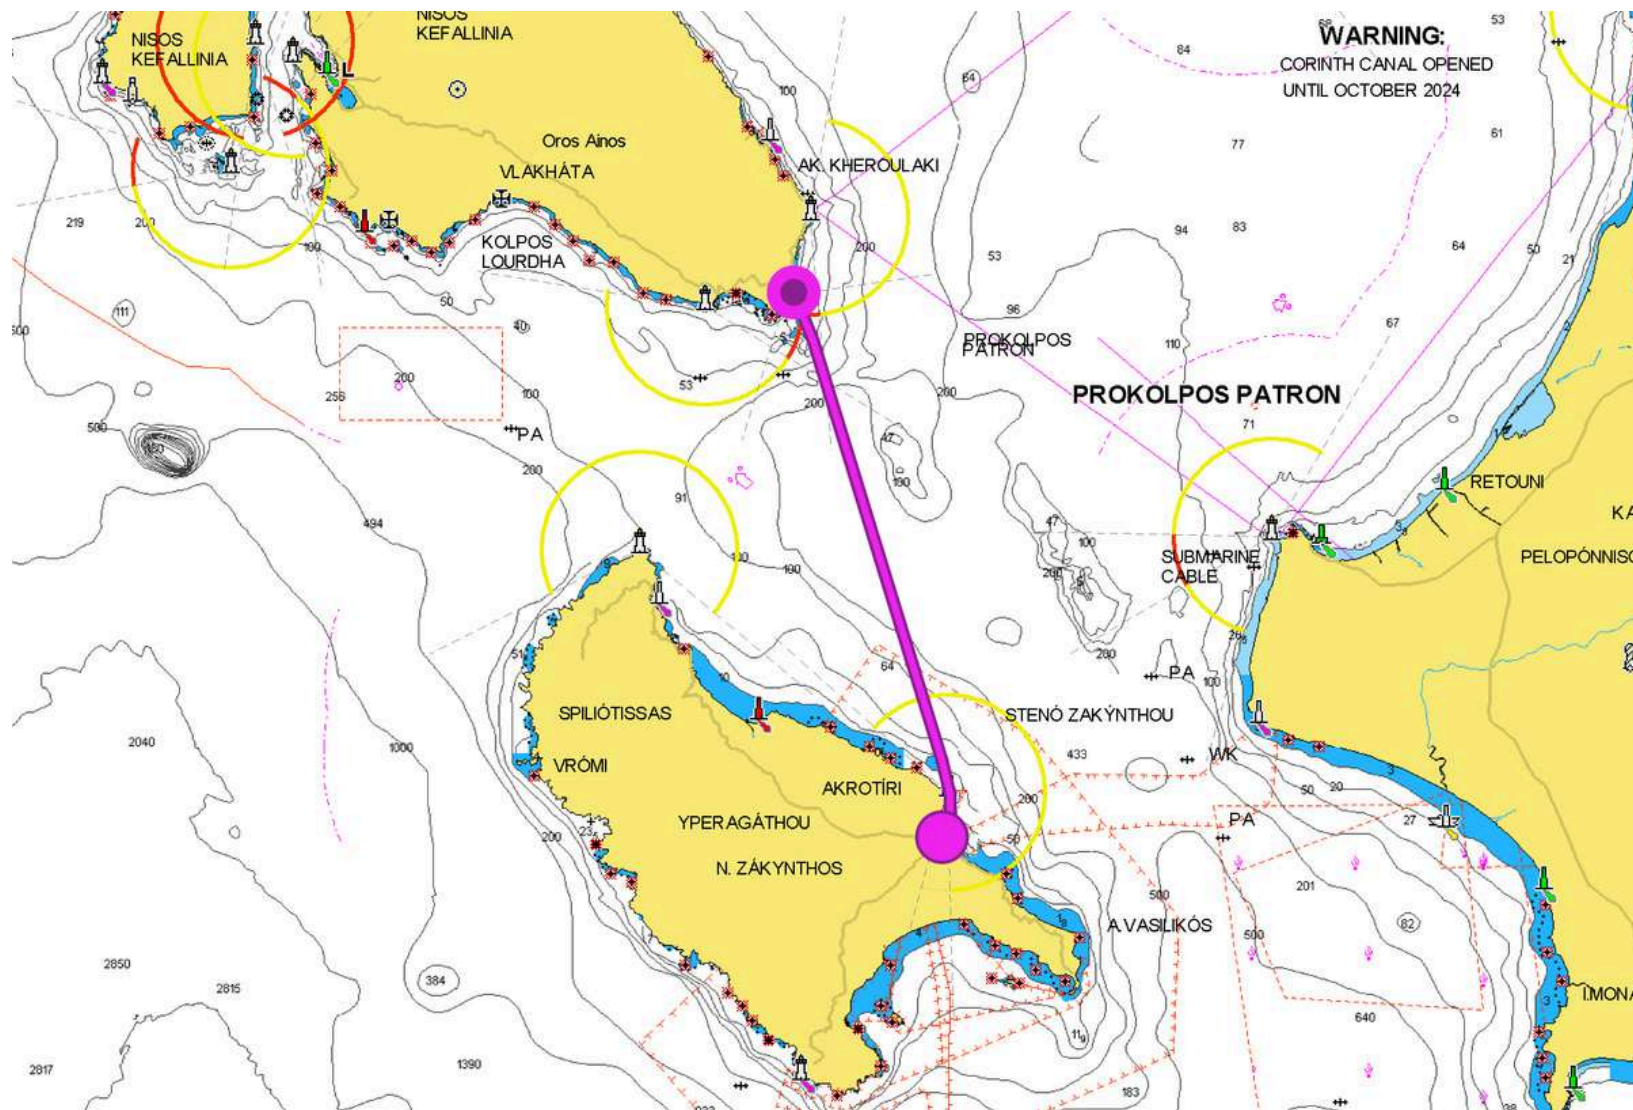

A Safety Briefing should be conducted in accordance with the MCA Code of Conduct. The following is a summary of what must be included and a complete checklist will be provided in the contract with the skipper and crew. You should to add anything else you deem necessary:

- use of life jackets, lifebuoys and procedures to be followed in an emergency;
- location of life rafts and methods of launching;
- Man Over Board procedures;
- location and use of emergency flares;
- procedures and operation of radios on board;
- location of navigation switches and other lights;
- location and use of firefighting equipment;
- methods of starting, stopping and controlling the main engine.

WARNINGS

Pay close attention to Ifalos Dimitri, a reef and shoal water 900m ESE of the harbour entrance. It is marked by a red conical buoy. Depths of 3-5 m. A good look out should be kept for ferries that are constantly coming and going from the harbour.

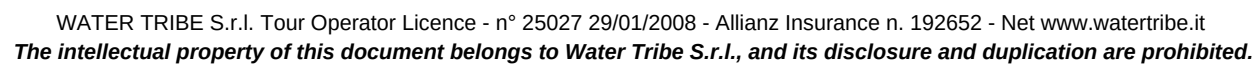

Considerable care is needed to approach Skala beach due to shallow water and rocks on S and SW of the island.
